

## Five Of The More Comfortable Keen Hiking Boots

Keen shoes has become very famous for their quality construction, their long lasting sturdiness, and their amazing comfort. This is an organization that is proud of their cross-breed strategy for living, and their half-breed way of creating shoes. Their wide spread of [mens Keen sandals](#) provide consumers with something for almost each situation that they can every find themselves in.

Following are the top five Keen hiking shoes now available this spring:

#5 - The Voyageur - Taking its name from the great explorers of the Northwest, these hiking shoes provide water-resistant comfort and superb stability while out on the trail. They come in 5 different colours, and they also offer a mid height version for even more support. The soles are ruggedly created to permit hikers to tackle any terrain and keep on moving. They also have some mesh venting on the sides to allow some airflow to keep your feet cosy.

#4 - The Arroyo II - These hybrid [comfortable womens sandals](#) are really the ideal fit for those long walks on a warm day. They have vented sides which permits maximum airflow in the hike. They also have durably built outer soles that flex and support the foot while hiking over rough terrain. Because they are totally water resistant, they can go thru shallow streams along the trail.

#3 - The Targhee II - This hiking shoe is truly meant for the off road hike that's going to last all day. The solid construction provides a absolutely water-resistant seal to get rid of any worries about barriers along the trail. They also have the durable and rugged outer sole to allow the hiker to tackle any terrain. Like the Voyageur, they also come in a mid height version.

#2 - The Powerline - This is the ultimate trail running shoe for those people that are looking to turn it up a notch on their next workout. These shoes offer a solid outer sole so that the bumps along the trail are not felt throughout the run. They also have breathable mesh sides that provide great air movement in the run. These are vital for your next off road run.

#1 - The Newport Trail WP - These hiking boots are ideal for taking on the toughest hiking challenges. They are constructed with complete water resistant protection and are intended to take on the most harmful conditions.
